

TRANSFORMER QUESTIONNAIRE

Please answer the following questions thoroughly in the space provided.

1. How are the transformers utilized? In what type of machinery or devices are they used?
2. Do they provide power conversion, isolation in order to prevent shock, or impedance for audio or other types of equipment?
3. If the transformers are for power conversion or isolation, what is the output (in volts or watts)?
4. Are there any tools, dies, molds, designs or other materials furnished (by your company) free of charge or at a reduced rate to any of your foreign suppliers? If yes, explain.
5. Do any of your foreign suppliers obtain tooling, molds or other materials from overseas and bill you separately for these costs? If so please provide copies of these invoices.
6. Do you pay any other charges or fees that are separately billed to you by your foreign suppliers? If so, please provide copies of these invoices.
7. Is your company related to any of your foreign suppliers? If yes provide details.
8. Please provide copies of the purchase order for the merchandise indicated on this invoice.
9. Please provide descriptive literature on the transformers that you import.
