

# Creating Value with Capacity and Service

## Union Pacific Domestic Intermodal Service

Connecting our nation's cities, businesses and supply chains is the ongoing, everyday mission of Union Pacific's domestic intermodal team. To support customers' wide-ranging transportation needs, Union Pacific has extensive equipment, ramp-to-ramp and door-to-door options. Union Pacific is the only western railroad to provide rail-owned domestic containers.

**EMP** - Domestic interline container service offered by Union Pacific and Norfolk Southern

- Nationwide fleet of 53' containers
- Instant access to fleet through e-Commerce solutions
- Offers single-driver truck-competitive service

**UMAX** - Domestic interline container service offered by Union Pacific and CSX

- Nationwide fleet of 53' containers
- Instant access to fleet through e-Commerce solutions
- Offers single-driver truck-competitive service

**STREAMLINE**

**Streamline** - Wholesale door-to-door service and the power to purchase intermodal one truckload at a time

- Integrates rail, ramp and over-the-road into a seamless intermodal product
- Ability to support distinct service requirements with 24/7 customer care
- One bill, one call for all services
