## Aluminum Extrusions Detail Form

Antidumping (ADD) and Countervailing (CVD) duty may apply to aluminum extrusions produced in China

1. Description of goods: \_\_\_\_\_ Part number: \_\_\_\_\_
2. Tariff number (if known): \_\_\_\_\_

*The Harmonized Tariff Schedule of the United States is online: <https://hts.usitc.gov/current>*

3. Are the goods aluminum shapes and forms produced by an extrusion process in China, (including subassemblies containing aluminum shapes and forms produced by an extrusion process in China)?
- Yes (proceed to question 4)
- No (stop)

4. Do aluminum alloys have Aluminum Association Series Designations beginning with 1, 3, 6, or specifically covering grade 5050?

- Series begins with 1 – not less than 99% aluminum by weight (proceed to question 5)
- Series begins with 3 – manganese is major alloying element, but not more than 3% by weight (proceed to question 5)
- Series begins with 6 – magnesium and silicon are major alloying elements, with magnesium accounting for at least 0.1% but not over 2% by weight and silicon accounting for at least 0.1% but not over 3% by weight (proceed to question 5)
- Grade 5050 (proceed to question 5)
- None of the above (stop)

5. Do the goods meet one of the following exclusions?

- Finished merchandise that is fully and permanently assembled and completed at the time of entry (stop)
- Finished merchandise in a finished goods kit, which means a packed combination of parts containing all the necessary parts to fully assemble a finished good (stop)
- Pure aluminum or products produced by a process other than extrusion, such as casting (stop)
- Collapsible tubular containers with length (excluding the nozzle) of 37mm or 62mm, diameter of 11mm or 12.7mm and wall thickness not exceeding 0.13mm (stop)
- Finished heatsinks designed and tested for specified thermal performance (stop)
- Rectangular wire of continuously cast rolled aluminum wire rod, subsequently extruded (stop)
- None of the above, ADD case A-570-967 & CVD case C-570-968 apply. (proceed to question 6)

6. Subassemblies containing aluminum extrusions only have ADD/CVD assessed on the value of the aluminum extrusions. Provide the value of the aluminum extrusions below and proceed to question 7.
- Aluminum extrusion content \$ \_\_\_\_\_ USD / Non-aluminum content \$ \_\_\_\_\_ USD

7. Manufacturer name and address (if known) for the aluminum extrusions produced in China:

Exporter/Seller name and address (if known): \_\_\_\_\_

Completed By:

Name: \_\_\_\_\_ Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Title: \_\_\_\_\_ Company: \_\_\_\_\_

This worksheet is not required by U.S. Customs, however, a detailed description of the merchandise is required. 04/22/14
