

M.E. DEY & Co.

**Copper and Copper Derivative Products Value Confirmation - Section 232 Tariffs**

Effective August 1, 2025, U.S. Customs and Border Protection (CBP) began collection of the 50% Section 232 tariff on certain imports of Copper and Copper Derivative Products from all countries. This additional duty is based on the value of the copper material in the product. If you are unable to provide the value of the copper content in the product, then the total value of the item will be subject to the additional 50% duty rate. If your product does not contain any copper material, please indicate that on the lines below. NOTE: Copper and copper derivatives include refined copper and copper alloys (brass, bronze, cupro-nickel, nickel-silver, etc.).

For more information on the additional Sec 232 reporting requirements, please review the CBP Trade Remedies webpage - <https://www.cbp.gov/trade/programs-administration/trade-remedies>. If you have questions regarding the Section 232 Copper provisions, please contact our Compliance Team at [compliance@medey.com](mailto:compliance@medey.com).
